Proposal No. 4 Issuance of Share Acquisition Rights for Employees, etc. as Stock Options

The Company proposes to delegate to the Company’s Board of Directors determining the terms and conditions for allocating share acquisition rights issued as stock options for the employees of the Company, etc. pursuant to Article 236, Article 238 and Article 239 of the Companies Act.

1. Reason for the need for offering share acquisition rights under particularly favorable terms
The purpose of issuing share acquisition rights in gratis as stock options to employees of the Company and Directors and employees of wholly owned subsidiaries is to further increase motivation and morale concerning the performance of the Company group (the “Group”) and to secure talented personnel.

2. Content of the share acquisition rights

- (1) Eligible persons for share acquisition rights to be allocated
Employees of the Company and Directors and employees of wholly owned subsidiaries who are approved by the Company’s Board of Directors
- (2) Number of share acquisition rights to be issued
Up to 2,573 (100 shares per share acquisition right)
- (3) Number of shares underlying the share acquisition rights
Up to a total of 257,300 shares
- (4) Amount of payment for the share acquisition rights, method of calculation thereof, and need for payment
Issued in gratis, no need for payment.

- (5) Total amount payable upon exercise of share acquisition rights and method of calculation
The amount to be paid when exercising share acquisition rights is the amount obtained by multiplying the amount to be paid per share determined on the day of allotment of share acquisition rights (“payment amount”) by the number of shares underlying each share acquisition right. The payment amount shall be the amount obtained by multiplying the simple average of the closing price of the Company’s shares in regular trading on the Tokyo Stock Exchange on the day of allotment of share acquisition rights and the six days immediately preceding that date (or the seven days immediately preceding that date if there is no closing price on that date) by 1.05. Any amount less than one yen shall be rounded up to the nearest yen. However, if that amount is less than the closing price on the day of allotment of the share acquisition rights (or the immediately preceding closing price if there is no closing price on the day of allotment), the closing price of the day of allotment of share acquisition rights shall be used.

The following equation shall be used to adjust the payment amount if the Company performs a share split or share consolidation after issuing the share acquisition rights. Any amount adjusted shall be rounded up to the nearest yen.

$$\text{Adjusted payment amount} = \text{Payment amount before adjustment} \times \frac{1}{\text{Ratio of share split or consolidation}}$$

Furthermore, the following equation shall be used to adjust the payment amount if the Company issues new shares at an amount less than market value (excluding the issuance of new shares due to the exercise of stock options) or disposes of treasury shares. Any amount adjusted shall be rounded up to the nearest yen.

$$\text{Adjusted payment amount} = \text{Payment amount before adjustment} \times \frac{\text{Number of shares already issued} + \frac{\text{Number of shares newly issued} \times \text{Payment amount per share}}{\text{Market value per share}}}{\text{Number of shares already issued} + \text{Number of shares newly issued}}$$

“Number of shares newly issued” shall be replaced by “Number of treasury shares disposed of” when disposing of treasury shares.

- (6) Exercise period
From July 1, 2020 until June 30, 2023
- (7) Conditions for the exercise of share acquisition rights
 - (i) A person who has received allotment of share acquisition rights shall have the status of Director, advisor or employee of the Company or Director, advisor or employee of a subsidiary of the Company when exercising the rights.

- (ii) The rights shall not be assigned, pledged, otherwise disposed of or inherited.
- (8) Matters related to the increase in capital stock and legal capital surplus when issuing shares due to the exercise of share acquisition rights
 - (i) If shares are issued due to the exercise of stock options, common stock shall increase by half the limit for increase in common stock calculated pursuant to Article 17, paragraph 1 of the Ordinance on Accounting of Companies. Any amount less than one yen shall be rounded up to the nearest yen.
 - (ii) If shares are issued due to the exercise of stock options, additional paid-in capital shall increase by the amount remaining after deducting the increase in common stock prescribed in (i) from the limit for increase in common stock in (i).
- (9) Provisions for the acquisition of share acquisition rights

The Company may acquire free of charge share acquisition rights in respect of items below if approved by General Meeting of Shareholders unless the obligation of granting share acquisition rights is succeeded by the surviving company (in case of (i)) or the Company's wholly owning parent company (in case of (ii)): (i) Proposal for approval of a merger agreement under which the Company is to be dissolved; (ii) Proposal for approval of a share exchange agreement or share transfer plan under which the Company is to become a wholly owned subsidiary.
- (10) Restrictions applicable to the acquisition of share acquisition rights by transfer

- (11) Other matters pertaining to offering share acquisition rights shall be determined in meetings of the Board of Directors separately held.
