2. Consumption tax, etc. are not included in the amount of net sales.

3. Diluted net income per share in the 72nd term consolidated cumulative third quarter is not stated above due to net loss per share, though potential share exists.

2. Description of Business

There was no material change in information regarding the business lines of our corporate group (the Company and its associated companies; hereinafter referred to as either the "Group" or "our Group", as the case may be) in the current consolidated cumulative third quarter.

The changes, with respect to each Reportable segment, of principal associated companies in the current consolidated cumulative third quarter are as follows;

(Display materials)

All shares the Company held of Polatechno Co., Ltd., which was the company accounted for under the equity method, were transferred, and so it has been excluded from the scope of the application of equity method from the current consolidated third quarter.

II. Status of Business

1. Business Risks, etc.

The current consolidated cumulative third quarter saw neither any new business risks, etc. emerging nor any significant change in the business risks, etc. stated in the Financial Report for the previous business year.

2. Analyses of Consolidated Financial Position, Business Results and Cash Flows by the Corporate Managers

Matters stated concerning the future in the text are based on judgments made as of the end of the current consolidated third quarter.

(1) Financial Position and Operating Results

1) Operating Results

The Japanese economy in the current consolidated cumulative third quarter remained uncertain due to the concern about the trade friction caused by the US trade policy and its financial policy, the slowdown of the Chinese economy, etc.

Under such circumstances, the results of operations of our group (the Company, its consolidated subsidiaries and the companies accounted for under the equity method) for the current consolidated cumulative third quarter showed net sales of 34,327 million yen (representing a 1.1% decrease as compared with the year-earlier quarter), an operating income of 2,077 million yen (representing an 21.6% decrease as compared with the year-earlier quarter), an ordinary income of 2,221 million yen (representing a 39.0% decrease as compared with the year-earlier quarter) and a loss attributable to owners of the parent of 118 million yen (profit attributable to owners of the parent of 2,411 million yen in the year-earlier quarter).

The reason for the net loss attributable to owners of the parent is the impairment loss of 624 million yen shown as extraordinary loss in the electronic materials segment and the display materials segment in addition to the tax expenses shown regarding the sale of all shares of Polatechno Co., Ltd., which was the affiliate company accounted for under equity method, in the third quarter.

In the electronic materials segment, the Company devalued the carrying amount of non-current assets to its recoverable amount as a result of our examining the future earnings prospect based on the latest business plan, because there is a downturn in profitability with the change of market and business environment in the rigid printed circuit boards business where Satosen Co., Ltd., which is a consolidated subsidiary of the Company, deals with their manufacture and sales. The impairment of goodwill is also shown.

In the display materials segment, the Company devalued the carrying amount of non-current assets to its recoverable amount as a result of our examining the future earnings prospect based on the latest business plan, because there is a downturn in profitability due to the projected market formation of a new business delayed more than expected in the field of polarization control optical components of ColorLink Japan Ltd., which is a consolidated subsidiary of the Company.

Business results with respect to each segment are as follows.

a. Electronic materials segment

In the electronic materials segment, net sales were 22,477 million yen (a 0.7% decrease as compared with the year-earlier quarter) due to a steady increase in sales of our mainstay product, i.e. materials for flexible printed circuit boards (the amount of orders received increased by 3.8%, and the production output increased by 4.7%, as compared with the year-earlier quarter on a non-consolidated basis of the Submitting Company), a decrease in sales of rigid printed circuit boards by Satosen Co., Ltd., etc., while the segment income was 1,935 million yen (a 13.6% decrease as compared with the year-earlier quarter) due to a decrease in sales of rigid printed circuit boards.

b. Industrial application structural materials segment

In the industrial application structural materials segment, net sales were 6,457 million yen (a 2.7% increase as compared with the year-earlier quarter) due to a steady increase in sales of materials for aircraft, a decrease in sales of water treatment pressure vessels, etc., while the segment income was 962 million yen (a 7.5% decrease as compared with the year-earlier quarter) due to a decrease in sales of water treatment pressure vessels.

c. Electrical insulating materials segment

In the electrical insulating materials segment, net sales were 2,269 million yen (a 5.7% decrease as compared with the year-earlier quarter) due to a decrease in sales of materials for infrastructure-related use, while the segment income was 248 million yen (a 27.9% decrease as compared with the year-earlier quarter) due to a decrease in sales.

d. Display materials segment

In the display materials segment, net sales were 2,573 million yen (a 7.6% decrease as compared with the year-earlier quarter) due to a steady increase in sales of 3D imaging-related materials and a decrease in sales of polarization control optical components by ColorLink Japan Ltd., while the segment income was 150 million yen (a 61.8% increase as compared with the year-earlier quarter) as a result of the profit of 3D imaging-related materials compensating for a decrease in the profit of polarization control optical components.

e. Other (other businesses)

In other businesses, net sales were 549 million yen, representing a 5.3% decrease as compared with the year-earlier quarter, while the segment income or loss recorded a segment income of 146 million yen (a 3.3% decrease as compared with the year-earlier quarter).

It should also be noted that the amounts of net sales, orders received, etc. stated in this section do not include consumption tax, etc.

2) Financial Position

Total assets as of the end of the current consolidated cumulative third quarter were 71,537 million yen, a decrease of 1,559 million yen compared with the end of the previous year. This was largely due to the share transfer of Polatechno Co., Ltd., which was an affiliate company, and the acquisition of treasury stock with an increase of 5,897 million yen in cash and deposits and a decrease of 8,047 million yen in investment securities.

Total liabilities as of the end of the current consolidated cumulative third quarter were 22,445 million yen, an increase of 2,811 million yen compared with the end of the previous year. This was due largely to an increase of 3,016 million yen in income taxes payable.

Total net assets as of the end of the current consolidated cumulative third quarter were 49,091 million yen, a decrease of 4,370 million yen compared with the end of the previous year. This was due largely to an increase of 3,200 million yen in treasury shares and a decrease of 1,205 million yen in retained earnings.

(2) Management Policy, Management Strategy, etc.

There was no significant change, during the current consolidated cumulative third quarter, in the management policy, management strategy, etc. set by our Group.

In light of the above, our Group stands on a management policy centering on the motto "Creation, Innovation and Challenge" as we aim to create corporate value and enhance shareholder value of the Company by means of enhancing customer satisfaction, accelerating new product development and improving profitability through thorough cost reduction.

2) Efforts to prevent inappropriate persons from controlling the Company's financial and business policymaking

The Company decided not to continue the protective measures (Takeover defensive measures) as of the end of the 71st Ordinary General Meeting of Shareholders held on June 27, 2019. However, if any acquisition of large block shares of the Company is made, we will strive to gather necessary and sufficient information which may enable the shareholders to make an appropriate judgement on the pros and cons of such acquisition of large block shares, and seek to secure time and information required for the shareholders' considering by disclosing opinions of the Board of Directors, etc.

(4) Research and Development Activities

The Group's total expenses for research and development activities incurred in the current consolidated cumulative third quarter amounted to 1,577 million yen.

<Material change in the scope of application of equity method>

All shares of Polatechno Co., Ltd. were sold in the current consolidated third quarter, and so it has been excluded from the scope of application of equity method.

(Changes in Accounting Policies)

<Application of IFRS 16 (Lease)>

IFRS 16 "Lease" (Published in January, 2016) (hereinafter, "IFRS 16") has been applied to the IFRS-applied subsidiaries of our Group since the current consolidated first quarter. In applying IFRS 16, we adopted the method allowed as Provisional measures where cumulative influence of application of this Standards is recognized on the commencement date of such application.

Regarding the lease on the side of lessee which was classified into operating lease by applying IAS 17 in the past, right-of-use assets and lease liability were recognized on the commencement date of such application.

A part of assets included in "Other" in "Investments and other assets" is transferred to right-of-use assets.

Along with the application of this Standard, Quarterly Consolidated Balance Sheets show that "Property, plant and equipment", "Other" in "Current liabilities" and "Other" in "Non-current liabilities" increased respectively by 363,384 thousand yen, 32,919 thousand yen and 292,273 thousand yen, while "Other" in "Investments and other assets" decreased by 39,675 thousand yen.

The influence on gain and loss in the current cumulative consolidated third quarter due to these changes was slight.

(Particular accounting treatments applied in preparation of quarterly consolidated financial statements)

<Calculation of tax expenses>

Tax expenses are calculated by multiplying the quarterly income before income taxes by an estimated effective tax rate. Such effective tax rate is reasonably estimated after applying tax effect accounting to the income before income taxes for the consolidated fiscal year including the current consolidated third quarter.

(Notes Related to Quarterly Consolidated Balance Sheets)

Notes, etc. maturing at the end of the consolidated third quarter

For accounting treatment of notes, electronically recorded monetary claims and electronically recorded obligations maturing at the end of the consolidated third quarter, settlement is made as of the clearing date of each note or as of the settlement date of each electronically recorded monetary claim and electronically recorded obligation, as the case may be. As the end of the current consolidated third quarter falls on a bank holiday, the following notes, electronically recorded monetary claims and electronically recorded obligations maturing at the end of the consolidated third quarter are included in their respective balances as of the end of the consolidated third quarter.
