1. Qualitative Information Concerning Current Quarterly Closing Announcement

(1) Explanation about Operating Results

As for the Japanese economy in the current consolidated cumulative second quarter, the normalization of economic activity has progressed further as the COVID-19 infections have been subsiding. Meanwhile, looking overseas, the future prospects remained uncertain due to the persistent high energy and raw material prices caused by the prolonged situation in Ukraine, global monetary tightening in addition to the economic downturn in China, etc.

Under such circumstances, the operating results of our group for the current consolidated cumulative second quarter showed net sales of 19,895 million yen (a decrease of 13.5% year-on-year) due to a decrease in sales of electronic materials, which is the main business field, caused by the significant impact from the decrease in demand in the Chinese market, despite an increase in sales of industrial application structural materials. Due to soaring energy costs and raw material prices in addition to the impact of a decrease in sales, the results in terms of profit and loss are as follows: an operating profit was 169 million yen (a decrease of 90.9% year-on year); an ordinary profit was 218 million yen (a decrease of 90.9% year-on year); and a profit attributable to owners of parent was 563 million yen (a decrease of 78.0% year-on year).

Operating results with respect to each segment are as follows.

(Electronic materials)

Net sales were 11,725 million yen (a decrease of 23.8% year-on-year) due to a decrease in sales of flexible printed circuit board materials and glass cloth for printed circuit board, while segment loss was 209 million yen (the segment profit of 1,360million yen year-on-year) caused by the impact from soaring energy costs and raw material prices in addition to a decrease in sales.

(Industrial application structural materials)

Net sales were 5,101 million yen (an increase of 27.2% year-on-year) due to an increase in sales of water treatment FRP pressure vessels and honey-comb panel for aircraft, while the segment profit was 571 million yen (a decrease of 3.9% year-on-year).

(Electric insulation materials)

Net sales were 1,232 million yen (a decrease of 1.7% year-on-year) due to a decrease in infrastructure-related sales, while the segment profit was 113 million yen (an increase of 116.3% year-on-year).

(Display materials)

Net sales were 1,677 million yen (a decrease of 23.1% year-on-year) due to a decrease in sales of 3D-related materials and polarization control optical components, while the segment profit was 420 million yen (a decrease of 26.8% year-on-year).

(Other)

Net sales were 157 million yen (a decrease of 2.9% year-on-year).

(2) Explanation about Financial Position

Total assets as of the end of the current consolidated cumulative second quarter were 67,983 million yen, an increase of 323 million yen compared with the end of the previous fiscal year. This was largely due to an increase of 1,966 million yen in notes and accounts receivable - trade, and contract assets, an increase of 899 million yen in property, plant and equipment, a decrease of 1,749 million yen in cash and deposits, a decrease of 583 million yen in merchandise and finished goods, and a decrease of 537 million yen in investment securities, respectively.

Total liabilities were 23,108 million yen, an increase of 2,556 million yen compared with the end of the previous fiscal year. This was largely due to an increase of 1,031 million yen in notes and accounts payable - trade, and an increase of 1,171 million yen in long-term borrowings, respectively.

Total net assets were 44,875 million yen, a decrease of 2,232 million yen compared with the end of the previous fiscal year. This was largely due to an increase of 969 million yen in foreign currency translation adjustment and a decrease of 3,088 million yen in retained earnings, respectively.

(3) Explanation about Future Forecast Information, including Forecast of Consolidated Business Results

(4) Notes to Quarterly Consolidated Financial Statements

(Notes on Going Concern Assumption)

No applicable matter.

(Notes in the Case of Significant Changes in Shareholders' Equity) No applicable matter.

(Application of Special Accounting Methods for Preparing Quarterly Consolidated Financial Statements) (Calculation of tax expenses)

Tax expenses are calculated by multiplying the quarterly profit before income taxes by an estimated effective tax rate. Such effective tax rate is reasonably estimated after applying tax effect accounting to the profit before income taxes for the consolidated fiscal year including the current consolidated second quarter.
